Overview: UNIQUE PROJECT IN THE HEART OF MIJAS PUEBLO TO BUILD A LUXURY VILLA We are very pleased to be able to offer this plot for sale with the basic project already registered in the town hall of Mijas Pueblo. The location of this plot is unbeatable for the simple reason that there are no urban plots in Mijas Pueblo that offer all the services and amenities that this plot offers. Whether for investment, holiday or second home, this opportunity will only be available in 2022! The 3D photographs are examples of the project to be executed. In the sale of this plot and project the client will have the opportunity to change some aspects of the project in accordance with the Mijas Pueblo building law code, so the buyer can put their own touch on this project. Get in touch to have more information about this project.
