Reference: R4005421

Price: 2,800,000 €  
Publish date: 12.05.23

Overview: Vitae Villas M9: state of the art design in harmony with nature Vitae Villas proudly launch to the market a new master piece project, the M9 villa. From a lush and elevated point in Monte Mayor, the property offers absolute privacy and breathtaking panoramic views to the emerald foothills and the Mediterranean Sea. The villa's main single level floor plan connects seamlessly with the expansive outside spaces – including terraces and the pool. The interior spaces all share a connection to the outside areas and views. Designed for comfort and enjoyment in all seasons, it offers a true shelter in nature. Vitae Villas innovates again and brings to its clients a subtle sophistication and refined concept for living. The project has a limited footprint on the natural environment and features green roofs, solar energy, drought tolerant landscaping. Noble materials and high quality specifications are integrated on every aspect of the villa. Vitae Villas is the trendy synonym of luxury living: sustainability without compromising comfort, in the middle of pristine nature, at the center of everything. If you are interested in knowing more about the Vitae Villas projects, do not hesitate to get in touch with us. We would be delighted to offer you a

private presentation of the entire development. KDT
