Overview: We have several plots for sale in Marbella Club Golf Resort, a private, gated complex, with 24-hour security and concierge, golf course and equestrian center. It is a residential in which it is essential to maintain the natural environment where most of the plots have a minimum of 4.000 m2 of surface on which only approximately 10.6% can be built, with a maximum height of 7 meters or ground floor plus 1. In this way, the natural environment and privacy of all homes is guaranteed. Since most pitches are sloped, basements can have views from above. All the plots have beautiful views combining the forest of the area, with the golf course, the views of the sea and the African coast and some even the horse jumping competition track. The complex also has a very nice Club House with the best possible service. In this case, this plot occupies the upper part of a hill, having an elevated position enjoys almost 360-degree views of the sea, forest and mountains. Its approximate buildable area is 587 m2 on 2 floors, plus the basement, terraces, etc.
