Overview: Villa K2: beauty, form and function in every aspect of the design and development We are thrilled to introduce to you the villa K2, embedded in unspoiled nature within the Monte Mayor Valley. This villa stands out for its distinct design experience, customized to the plot and taking advantage of the best panoramic open views. Integrated in the mountain and nestled between the indigenous Spanish pines, the property considers a state of the art engineering and modern technologies, combined with traditional methods and craftsmanship. The property is adapted to the natural setting, integrating inside and outside spaces, and engaging people with their surroundings and environment. This holistic approach to design and development offers an authentic form of sustainability and a new standard of living in nature. Vitae Villas brings to its clients a subtle sophistication and refined concept for living. It has a limited footprint on the natural environment and features green roofs, solar energy, drought tolerant landscaping. Noble materials and high quality specifications are integrated on every aspect of the villa. K2 is the trendy synonym of luxury living: sustainability without compromising comfort, in the middle of pristine nature, at the center of everything. If you are interested in knowing more about this villa, do not hesitate to get in touch with us. We would be delighted to offer you a private presentation. KDT
