Publish date: 12.05.23

Overview: FANTASTIC VIEWS from this unique Ibiza style villa set in Punta Chullera, Manilva. If views is what your client is looking for, this is a must see property. This villa has been completely re-built yet its original and unique features have been retained. On the ground floor there is an open style lounge, kitchen and dining room with a guest toilet and shower. Off the lounge there is a huge terrace with panoramic sea views over Gibraltar and Africa. A separate barbecue/dining area adds to the space for al fresco living. Various big windows all through the house flood the property with light. On the first floor we have 3 bedrooms and two bathrooms, all completely renovated, mixing traditional Andalusian features with modern design. A second lounge, which can be used as a 4th bedroom, is also on this level, plus another terrace wrapped around it. The house is surrounded by immaculately landscaped, terraced, mature gardens. The house comes with a garage for 2 cars, storage and a HYDRO swimming spa. Viewings are highly recommended.
