Overview: This beautifully presented corner townhouse in lower Calahonda is situated within a short walk of all amenities! Set at the end of a cul de sac in a quiet residential community of just 5 other houses, the property consists of: on the ground floor, a large and well equipped kitchen diner, a guest shower room, a very large living dining room with fireplace leading to a large terrace with built in barbecue. On the top floor are two large bedrooms each with a private terrace and built-in wardrobes, plus a family bathroom. From the lounge you also have another internal staircase leading down to another huge suite with enormous bedroom and an ample shower room. There is a further level underneath that consists of an independent guest apartment with living room, kitchen, bedroom and shower room. The communal pool and gardens are beautifully kept, and it's rare to find a house with such a quiet location but so close to everything you would ever need without the need for a car

Features:

Pool, Air conditioning, None
