Publish date: 14.01.24

Overview: This villa takes your breath away as you walk through the over sized entrance and see the sweeping views of the Mediterranean Sea. The bright and airy open space leads you to the large salon surrounded by glass windows and doors allowing the views of the sea to be seen from every angle. On ground level, you have a large separate kitchen, formal salon, dining and large room currently used as an office area and relaxing television room, guest cloakroom and a guest suite with dressing room and en suite. Upstairs from the sweeping staircase you are greeted with an exceptional master suite with en suite and dressing area where the views can be seen even from the bath tub. There is also another large guest suite, again with dressing area and en suite. Moving to the basement taking the lift if you so wish, you have 2 further bedrooms, both of which are self contained with their own small salons and kitchen areas, both these guest suites lead on to an outside terrace with steps that take you to the garden area. Walking outside of the villa you are met with a beautiful covered terrace and large heated swimming pool and gazebo bbq area, where the views are spectacular. The garden area surrounds the villa from the driveway in, around to the garden and sweeping driveway that takes you to the underground garage. Overall, this villa is breathtaking. For those that appreciate the beauty of the timeless Andalusian charm and exquisite finish with views that stretch the coast, then this property is a must see.
