Vue d'ensemble: In our business you sometimes walk into an apartment and you think WOW! This is one of them. You enter the property through private gate to a South West facing terrace. Going into the apartment you find the kitchen on your left. It is a good size with a separate utility area. From here you walk into the living dining area. It has a lovely bright and sunny feeling. The lounge is so well positioned with views from all angles. The 2 good sized bedrooms are on the other side of the living room with 2 bathrooms of which one is ensuite. The master bedroom also has a dressing area and both bedrooms benefit from built in wardrobes. The living room leads out onto the main sunny terrace followed by a private garden. The terrace is covered but transparent so still very light. There is a gate directly to the pool that is just a stone throw away. This is a try gem and will not take too long to sell. Quick and easy viewings with keys in the office.
