Vue d'ensemble:A BEAUTIFUL AND LARGE FAMILY HOME IN MIJAS. A beautiful home in need of loving attention to bring it uo to a more luxurious contemporary standard. This fabulous Valtocado villa was built by the current owners for themselves in a truly special location with mesmerising views and a private plot of 2000 sqm. Set in breath-taking countryside overlooking the coastal plains of Mijas, this wonderful home is well-built and elegant, with a layout that caters for large family gatherings. Accessed through automatic gates, the driveway leads around the side of the villa where there is a 3 car garage, and then continues to the rear of the house with plenty of space for further car parking. The main entrance is on the front of the villa accessed by steps, whilst the more convenient entrance is at the rear of the house and accesses directly into the utility area and kitchen. From here a corridor flanked with floor to ceiling windows runs along the rear of the living room, which in turn has large patio windows and doors leading directly to the covered terraces, garden and infinity swimming pool. There are 3 full bedrooms with ensuite bathrooms on the upper floor. One master suite on the ground floor and a further bedroom with bathroom on the basement level. This Mijas villa is the perfect opportunity if you are looking for a tranquil family home in the incredible landscape of Campo Mijas on the Costa del Sol. Although the property is not far from Fuengirola city (about 15 minutes drive) and is close to the white-washed village of Mijas (about 5 minutes drive) it is in a very private location accessed by a road which is unpaved in places, although easily accessible by a

standard car. Wonderful infinity swimming pool and a large games area and bar in the basement.
