Vue d'ensemble: Studio apartment on the fourth floor in Edif. Calypso 2, Mijas Costa. Built in the 60s with the tourism growth, it was originally a Hotel and currently is a residential building located in a quiet urbanisation. Good to buy as an investment for holiday rentals due to its location, within easy walking distance to the beach, shops, restaurants and amenities. The studio needs to be completely refurbished, however it has potential, it also benefits from a small terrace to enjoy the sunset
