Vue d'ensemble: Urban plot in Alhaurín el Grande with town water connected, plus the possibility of building a ground floor and an additional floor. This is an excellent investment opportunity as it gives you the option of creating a two-story home with a fantastic outdoor area and layout flexibility. Additionally, it is a very interesting plot for the residents of Calle Albaicín since there is the possibility of connecting the patios and having a direct entrance to the house from the rear, adding an additional benefit and value. This would allow the creation of a larger outdoor space, such as a garden, orchard, swimming pool or parking area, adding great value to the property at the time of a possible future sale, as this would appeal to potential buyers.
